
Tangent duo clock radio

The famous Tangent Uno took the market by storm.
Consumers loved the retro-styled cabinet with top-tuned electronics. Tangents designers now have moved the little radio into the bedroom, or where ever you want to wake up to the fabulous sound of today's tunes.

Tangent Duo is not only a table-radio, it is also a clock radio, precisely controlled by an accurate Quartz analogue system.

But forget all about traditional "clock-radio sound". Tangent Duo's classic styling may take you back to the time before great sounding radios, but its impressive performance speeds you right back to today, where you are surrounded by rich, radiant sound.

Tangent Duo is available in Red, Black, Oak, Walnut and White finish.

Specifications:
